UC DAVIS HEALTH | SCHOOL OF MEDICINE

Chair, Department of Dermatology

Leadership Profile

September 2025

Prepared by Aaron Mitra, Kimberly A. Smith, Katie Haddock

WittKieffer

Contents

The Opportunity

UC Davis School of Medicine (SOM) is seeking a forward-thinking, collaborative academic dermatologist to take on the role of Chair for its Department of Dermatology (Chair). This is a unique opportunity for a physician leader to collaborate with both the SOM and UC Davis Health system leadership in elevating an already strong foundation of clinical care, education, and research. The Chair will be central to shaping the Department's future – through strategic growth, recruitment, and impactful outreach.

The SOM is among the nation's leading medical schools committed to scholarly advancement and education, and it is consistently ranked by *U.S. News & World Report* for these efforts. The Institution excels at translating scientific discoveries and new technology into improved patient care with a research-funding portfolio of over 1,300 active awards with more than $400 million in extramural funding. As the clinical engine, UC Davis Health (UCDH) is a multibillion-dollar health system within the University of California System with more than 1.2 million outpatient and 40,000 inpatient visits each year across the 646-bed academic medical center, 32 ambulatory sites, and a 1,000-member medical group. The Institution includes multiple areas of excellence, including: an NCI-Designated Comprehensive Cancer Center, nationally recognized research centers in both neurodevelopmental disorders and Alzheimer's Disease, an NCATS-funded Clinical Translational Science Center, a nationally ranked children's hospital, a forward-thinking and pioneering telehealth program, Magnet designation, and multiple other awards.

The Department of Dermatology at UC Davis is a well-reputed department with a storied history of growth and success across its missions of clinical care, education, research, and community outreach. With 29 faculty and 103 staff, the Department received $6 million in research grant funding in 2024, of which approximately $1.5 million was awarded by the NIH. Residency and fellowship training programs offered by the Department are highly competitive and sought after in the medical community. The Department offers a broad range of dermatology services to patients across the Sacramento region.

Reporting to the Dean, UC Davis School of Medicine, the Chair will be charged with leading the continued success of a nationally prominent Department of Dermatology into the future with creativity and collaboration. They will be the strategic and operational leader of all missions – field-expanding clinical, translational, and basic science research; education to train future clinicians and researchers; and the highest quality, innovative clinical care. Success in this role will be judged upon expanding clinical operations to serve a growing patient population, funding, and success impactful and innovative research, competitive training programs, and a culture that attracts and retains the best in dermatology faculty.

The next Chair will be a renowned academic physician with a leadership track record and skillset to take the Department into a future of excellence across all clinical and academic missions. We seek candidates with experience leading operations and growth strategies in an academic healthcare setting. The ideal candidate will be a skilled researcher with a history of securing funding and building talented research teams to expand the field of dermatology and collaborate with other disciplines. They will be visionary with strong business acumen to understand the changing needs of an academic dermatology department and how to lead strategically and culturally. They will serve as a mentor for faculty of all ranks and will be able to attract, evaluate, and recruit the best of the best in the field of dermatology. Candidates must possess an M.D. or equivalent degree, board certification in Dermatology, and qualify for appointment to Associate Professor or Professor at the SOM. Additional advanced degrees will be of added value.

WittKieffer

Organization Overview

Department of Dermatology

The Department of Dermatology at UC Davis is a top-ranked program conducting innovative research, training physicians and scientists, and providing a wide range of clinical services to patients across the Sacramento area. Home to 29 faculty and 103 staff, the Department has gained national prominence, and its members have received many awards and accolades since its inception in 1972. In 2024, the Department received research grants totaling more than $6 million, of which approximately $1.5 million was awarded by the NIH. As such, the Department ranked 21st in Blue Ridge's ranking of NIH funding in 2024. The Department offers a highly competitive residency, attracting talented trainees to study under its faculty. The Department is the only comprehensive dermatology program in the Sacramento region, offering access to its world-renowned experts in skin conditions, specialized clinics, cosmetic procedures, top-rated hospital care, and clinical research studies.

Clinical Operations

UC Davis Department of Dermatology gives patients the largest number of specialty dermatology clinics in the Sacramento region. Faculty dermatologists specialize in complex skin disorders of many types, including those caused by autoimmune diseases. Dermatology specialties seen by faculty members include:

- Acne
- Contact Dermatitis
- Cosmetic Dermatology
- Eczema
- Hair Disorders
- Multicultural Dermatology
- Oral Mucosal Diseases
- Pediatric Dermatology
- Psoriasis
- Rheumatology-Dermatology
- Skin Cancer
- Skin Cancer Treatments
- Vitiligo

The Department members have approximately 60,000 patient encounters annually, seeing patients in six sites in the cities of Sacramento, Davis, Elk Grove, Folsom, and Roseville. Services are provided in conjunction with UC Davis' Community Physicians Group and UC Davis Health Ambulatory Operations. UC Davis Health and the Department of Dermatology are focused on growth to support a growing need for dermatological services in the community and the growing patient population across the region.

Research

The UC Davis Department of Dermatology has expanded its research endeavors significantly in the last several years, and research conducted within the Department continues to make important contributions to science and medicine. Research in the Department is funded by a diverse group of funding agencies, including the federal government, organizations in industry, and philanthropic groups, totaling $6.1 million for 2024. Approximately $1.5 million of those funds were awarded by the NIH, including multiple R01 grants.

Total research funding by sponsor type for FY 2024. Contact PI only.
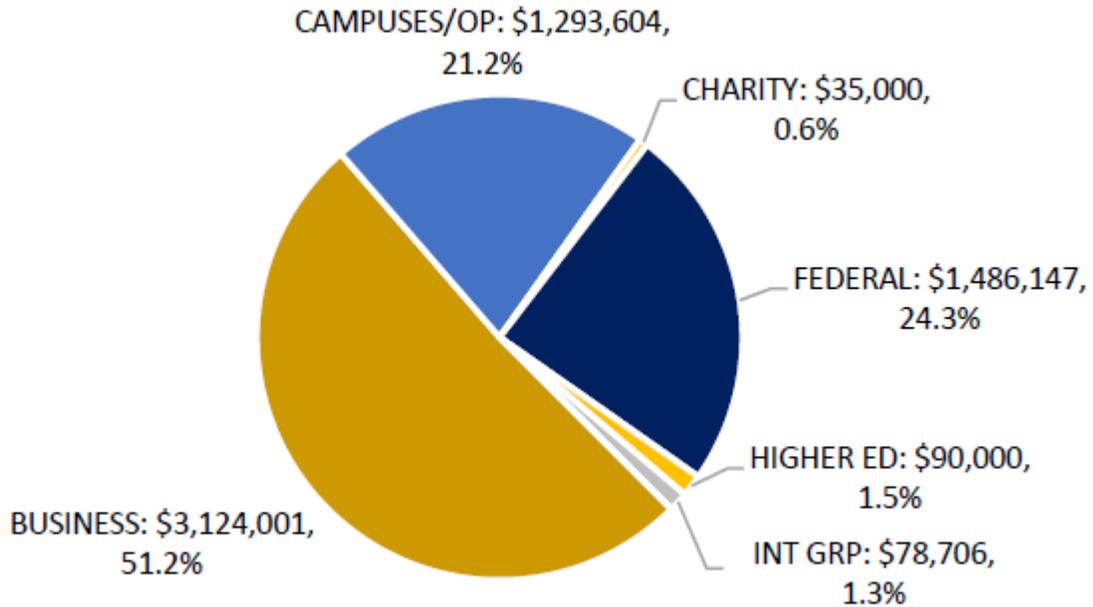

Research being conducted in the Department spans basic science, translational, and clinical research. Eleven faculty members in the Department lead basic science labs, studying topics spanning from wound healing and bioengineered tissue replacement, melanoma, and graft vs. host disease. The Department has a robust program in clinical research, including therapeutic clinical trials, health outcomes research, telemedicine, medical education, and multiple registries and biospecimen collection research projects. In 2024, the Department led investigator- and sponsor-initiated clinical trials funded by nearly $3 million in contracts. There are many outside collaborations on research projects conducted by the Department with large multi-million-dollar grants coming from California Institute for Regenerative Medicine and the Department of Defense as well.

Education and Training

The educational component of the Department of Dermatology at UC Davis has a strong national reputation with polls in social media ranking it one of the top 15 programs in the country from the standpoint of dermatology applicants and current residents.

Residency

The Department offers a residency program with a mission to train dermatologists with a broad range of skills, talents, and educational and cultural backgrounds to become excellent clinicians and to care for the diverse population of Sacramento and beyond. The program aims to prepare residents for academic practice or post-graduate fellowships, if they desire. This includes the opportunity for protected research time in appropriate circumstances. To offer the broadest training, the residency offers multiple areas of subspecialty expertise, and residents train at various training sites, including UC Davis University Hospital, Mather VA, Kaiser Permanente, and multiple other clinics.

Fellowship

The Department also leads an ACGME-approved Micrographic Surgery and Dermatologic Oncology Fellowship and ASDS Cosmetic Dermatologic Surgery Fellowship. The program is one year in length and offers extensive training in Mohs surgery, laser surgery, and cosmetic dermatology. This is a combined surgery and laser fellowship with a research component, created to train fellows who will continue to contribute to the field long after completing their training.

UC Davis School of Medicine

UC Davis School of Medicine is a mission-driven community of learners, physicians, scientists, and staff committed to advancing health equity and improving lives.

The School of Medicine at a glance:

- $400 million in external research funding for fiscal year 2023-2024
- Ranked 33rd in funding from the National Institutes of Health
- U.S. News & World Report ranks the School of Medicine:
    - Tier 1 in primary care training
    - 17th for most graduates who practice in primary care settings
    - Tier 2 in research (out of four tiers)
- 25 academic departments encompassing basic sciences and clinical departments
- Our school includes more than 3,100 faculty and staff, 900 residents and fellows, and 600 students

Our nationally recognized academic programs are rooted in innovation, groundbreaking research and providing exceptional patient care.

- Tailored clinical tracks focus on meeting California's physician workforce needs, including Rural-PRIME, REACH, TEACH-MS, COMPADRE and Tribal Health PRIME
- A dual M.D./Ph.D. degree program prepares future physician-scientists to meet evolving scientific, social, ethical, political, and humanitarian challenges
- A five-year ARC-MD program provides medical students with research and career mentorship to become physician-scientists
- Fully accredited master's degree programs in clinical research, public health, and informatics
- UC Davis-affiliated student-run clinics that provide free health care to uninsured, low-income and other under-resourced communities throughout Greater Sacramento

Aggie Square

Aggie Square is a first-of-its-kind, $1 billion innovation district anchored by UC Davis and developed by Wexford Science + Technology of Baltimore, Maryland. The new mixed-use development encompasses research labs, classrooms, residential and public spaces. The first buildings opened in May 2025. Aggie Square is situated on 11 acres at the UC Davis Sacramento campus and will create 1.2 million square feet at buildout.

About 350 School of Medicine scientists and affiliated centers will conduct collaborative studies on public health, health policy, emerging technologies in neurosciences, cancer, surgical biomedical engineering, and musculoskeletal research. The medical school occupies about 300,000 square feet of collaborative research and education space in Aggie Square.

Aggie Square expands educational opportunities for biomedical and UC Davis health professions students and clinicians with leading-edge anatomical and surgical training capabilities, as well as continuing education programs. It also fuels research and innovation with on-site design, prototyping, and manufacturing services via Tech Foundry. The UC Davis Health Ventures team, also based at Aggie Square, collaborates with researchers

WittKieffer

and clinicians to accelerate discoveries into real-world solutions through funding, partnerships, and other programming. Together, these services and resources offer a vibrant ecosystem that makes UC Davis Health a destination for talented individuals eager to educate, innovate, and translate human health research for the benefit of society.

School of Medicine Centers

UC Davis offers some of the nation's most prominent centers and research programs, led by internationally renowned faculty and research teams. These centers include:

Alzheimer's Disease Research Center

The Alzheimer's Disease Research Center advances the understanding of Alzheimer's disease and related dementias through comprehensive research participant evaluations and leading-edge research. Experts conduct basic and clinical research including clinical trials, clinical evaluations, community outreach and education, professional education, and research training.

Center for Health and Technology

As one of the strongest and most robust telehealth programs in the United States, the UC Davis Center for Health and Technology (CHT) conducts a wide variety of clinical, educational and research activities focused on improving people's health and well-being. CHT partners with community hospitals and clinics throughout California to provide access to specialized medical care and education through telecommunications technology.

Center for Healthcare Policy and Research

The Center for Healthcare Policy and Research (CHPR) generates scientific evidence and promotes best practices and policies to advance health and health equity. CHPR leads, collaborates, and trains future leaders in interdisciplinary and community-engaged research, and the critical translation of research and evidence into real-world use.

Center for Precision Medicine and Data Sciences

The Center for Precision Medicine and Data Sciences convenes multidisciplinary research teams to tackle today's health care challenges in data science, clinical care, nutrition and more. Precision medicine takes a personalized approach to research and clinical care, resulting in better health outcomes and more targeted treatments, while data science enables the analysis and integration of complex health data, supporting the development of precision therapies and a shift from reactive to predictive models of care.

Center for Reducing Health Disparities

The Center for Reducing Health Disparities takes a multidisciplinary, collaborative approach to addressing inequities in health access and quality of care. This includes a comprehensive program for research, education and teaching, and community outreach and information dissemination. The center builds on UC Davis' long history of serving the region's most vulnerable, underserved populations.

Clinical and Translational Science Center

The Clinical and Translational Science Center (CTSC) serves as a catalyst to support biomedical research projects by providing services and resources to investigators, staff, scholars and trainees, and community partners. The CTSC facilitates research to improve public health by contributing new knowledge about access, delivery, cost, quality, and outcomes related to health care.

Comprehensive Cancer Center

A national leader in cancer care, the UC Davis Comprehensive Cancer Center is among only 52 cancer centers designated as a "comprehensive" cancer center nationwide. The Cancer Center attracts more than $100 million

annually in funding for research to find better ways to prevent, diagnose and treat cancer. Its top specialists provide compassionate, comprehensive care for more than 9,000 people annually, and offer patients access to more than 150 clinical trials at any given time.

The MIND Institute

The MIND Institute is an interdisciplinary, collaborative research, clinical, and educational center committed to deepening our scientific understanding of the challenges associated with autism and other neurodevelopmental conditions. The MIND Institute has research studies focusing on autism, Down syndrome, Fragile X, attention-deficit/hyperactivity disorder, and chromosome 22q11.2 deletion syndrome. It is one of the only research centers in the world where clinicians work together in the same place as scientists studying neurodevelopmental disabilities.

Stem Cell Program

UC Davis' Stem Cell Program brings together physicians, research scientists, biomedical engineers and a range of other experts and collaborative partners at its Institute for Regenerative Cures. The $62 million facility, supported by the California Institute for Regenerative Medicine (CIRM), is the hub for collaborative, team-oriented science that is advancing breakthrough discoveries designed to bring stem cell therapies and cures to patients everywhere.

UC Davis Health

UC Davis Health is improving lives and transforming health care by providing excellent patient care, conducting groundbreaking research, fostering innovative, interprofessional education, and creating dynamic partnerships with the community.

As the region's only academic health system, UC Davis Health is focused on discovering and sharing knowledge to help everyone in the area receive the highest levels of care.

UC Davis Health treats patients with three hospitals, two schools of health, an extensive regional primary care network and virtual telehealth connections to more than two dozen rural hospitals around Northern California.

UC Davis Health consistently ranks among the best places to work in the nation.

- Forbes Best In-State Employer (5th year in a row)
- Ranked 19th best in 2025 by Forbes for Best Large Employers
- Forbes Best Employer for Women 2024
- One of Newsweek's America's Greatest Workplaces for Job Starters 2024
- Perennially named an LGBTQ+ Healthcare Equality Leader in Healthcare Equality Index rankings, and a Newsweek America's Greatest Workplaces for LGBTQ+ 2024
- One of Newsweek's America's Greatest Workplaces for Parents and Families 2023

A regional economic powerhouse

UC Davis Health is a major driver of economic prosperity in the Sacramento region and California.

- Statewide, UC Davis Health generates $6.25 billion in economic impact each year
- Second-largest employer in Sacramento County, behind the State of California
- In 2023, UC Davis Health's direct expenditures of $1.84 billion led to a total economic impact of $4.01 billion in the region, or an additional $1.18 for every dollar spent

WittKieffer

UC Davis Medical Center

UC Davis Medical Center is one of the top hospitals in California, ranked among the Top 50 in the nation and the top-ranking hospital in the Sacramento metro area.

Nationally renowned, it is a leading referral center for the most seriously injured or ill patients and medically complex cases.

Highlights:

- A 653-bed multispecialty academic medical center
- 65,000-square-mile service area includes 33 counties and 6 million residents
- UC Davis Medical Center operates the only Level 1 trauma center for both adult and pediatric emergencies in inland Northern California
- Ranked among the nation's top 50 hospitals in cancer, cardiology, heart & vascular surgery, diabetes & endocrinology, ENT, geriatrics, neurology & neurosurgery, orthopedics, and pulmonology & lung surgery
- Together with Shriners Children's ranked among the nation's top 50 children's hospitals in diabetes & endocrinology, nephrology, and orthopedics
- Magnet® certified, the nation's highest honor for nursing excellence
- For 12 consecutive years, a "Most Wired" health system for excellence in using technology to improve care delivery

48X Complex

The 48X Complex is an outpatient surgery center that addresses the growing demand for same-day or overnight surgical services. The four-story, 268,000-square-foot facility exemplifies UC Davis Health's commitment to innovation and excellence. The $589 million modern surgical center reflects a shift toward more convenient, same-day procedures that help patients recover without needing a hospital stay.

UC Davis Health Ambulatory Services

Ambulatory Care Services represents UC Davis Health's network of primary and specialty care across the Greater Sacramento area. The patient-centered system delivers the highest level of care through efficient, innovative clinical operations and care delivery partnerships.

Today, the ambulatory footprint extends to more than 33 sites and over 75 clinical practices in the greater Sacramento area, with over 1.7 million provider visits annually in primary and specialty care, plus 700,000 more outpatient visits for lab, imaging, dietary, social work, therapies, and other ancillary services.

Ambulatory Care is a key part of how UC Davis Health cares for and keeps people well. In 2025, the Folsom Center for Health opened the Medical Care Clinic, a 114,702-square-foot building and the first of three planned for the complex. Besides a 16-bay infusion clinic and an eye center, the site offers cardiology, endocrinology, neurology, orthopedics, imaging and more.

Future plans include expanding telehealth and bringing more care into the patient's home. The latest digital tools boost provider communication and make care more convenient and personalized than ever.

UC Davis Health believes everyone should enjoy the ability to live a healthy life. That's why Ambulatory Care Services continues to explore every opportunity to increase access to clinical care, whether by implementing the latest technology or ensuring patients see a qualified care provider, even when their primary doctor is busy.

UC Davis Health was recently ranked in the top 10 nationally for the outstanding quality of its ambulatory care in the outpatient clinics and the emergency department, by Vizient, which measures outcomes for academic medical centers.

Ambulatory Care Services brings excellent care directly to your neighborhood—combining top-tier specialists, cutting-edge technology, and personalized attention to make high-quality care more convenient, accessible, and centered around what matters most to you.

Future Developments

Between 2021 and 2030, UC Davis will spend more than $7 billion to construct new facilities for health care delivery and research in Sacramento.

UC Davis Medical Center California Tower

As the "Hospital of the Future," the California Tower for UC Davis Medical Center is a $3.75 billion project that will stand up a new 14-story hospital tower and five-story pavilion while rejuvenating existing facilities. Opening to patients in 2030, the California Tower will create 400 private rooms for patients and double the square footage of the Medical Center. The space will also include new operating rooms, an imaging center, a larger emergency room, and other ancillary services.

WittKieffer

Position Summary

As the leader, architect, and chief advocate for the Department of Dermatology, the Chair will lead across the missions of clinical care, research, education, and outreach to the community. They will lead and develop the Department faculty and staff, nurturing the current talent and attracting and recruiting future members to develop a culture of excellence and expand its service and scholarly output. The Chair will foster interdisciplinary collaboration across the SOM, UC Davis Health, its other clinical partners, as well as external constituents, encouraging creativity to advance the field of dermatology. This person will be charged with leading and enhancing the current research portfolio and securing funding from a broad landscape of federal, state, and local agencies, industry partners, and philanthropic organizations. Strategic leadership will be key, especially in guiding the clinical enterprise as it expands to meet evolving healthcare demands. With a focus on maximizing departmental performance and financial sustainability, this leader will ensure that both clinical and academic missions are advanced in concert.

Reporting Relationships

The Chair, Department of Dermatology reports directly to the Dean of UC Davis School of Medicine, Dr. Susan Murin.

Reporting to the Chair are the following leaders:

- Vice Chair of Clinical Affairs
- Vice Chair of Clinical Research
- Vice Chair of Academic Affairs
- Vice Chair of Research
- Vice Chair of Education
- Executive Vice Chair

See Appendix for Departmental organizational charts.

Key Responsibilities

The incoming Chair will be responsible for:

- Shaping and communicating a clear vision and operational strategy to enhance departmental efficiency, service quality, and innovation. In close collaboration with SOM and health system leadership, they will refresh and execute a strategic plan aligned with institutional goals and priorities.

- Leading the growth and integration of high-performing clinical programs that position the Department as the region's premier dermatology provider.

- Inspiring and supporting faculty, staff, and trainees, emphasizing professional development and recruitment of exceptional talent.

- Providing oversight of the Department's research portfolio, mentoring faculty, and championing interdisciplinary collaboration.

WittKieffer

- Maintaining robust performance and quality oversight for all clinical providers in the Department, while cultivating an environment of trust, transparency, and accountability, and driving for the highest metrics in clinical quality.

- Ensuring excellence in the educational programs provided by and supported by the Department.

- Fostering strategic partnerships across the SOM, UC Davis Health, and broader communities, aligning research and clinical initiatives with institutional priorities.

- Overseeing departmental budgeting and financial sustainability, encouraging responsible stewardship of resources.

- Advocating for the Department within the greater UC Davis institution, locally and nationally, and serving as its representative and spokesperson.

Goals and Objectives

The following goals and objectives have been identified as priorities for the Chair over the next 18 to 24 months:

- Ideate, define, and communicate a vision for the growth of the clinical operations of the Department to meet the expanding needs of the patient population. Work collaboratively across UC Davis Health and other clinical affiliates to increase access to clinical services.

- Support sustainable financial management of the Department into the future to support excellence and growth across all missions.

- Maintain the competitive reputation of the education programs provided within the Department. Cultivate a culture of support and collaboration for Dermatology trainees.

- Drive creative growth and expansion of the Department's research portfolio, identifying and securing grant funding from a diversified group of funding agencies and industry partners.

- Nurture the clinical research output of the Department in alignment with growing clinical operations, giving particular attention to a portfolio of robust clinical trials and accruals of patients within them.

- Drive growth of the Department through attraction and recruitment. Build a culture within the Department to promote retention, making academic dermatology a desirable destination for new trainees

- Partner closely and collaboratively with the UC Davis Ambulatory Operations and Community Physicians Group, focusing on synergistic growth to meet the needs of the growing patient population seeking clinical dermatology services. Work with UC Davis Health in creating a strategic plan for space to support Departmental operations and a system that addresses patient access to services.

- Establish a culture within the Department based on a foundation of support, accessibility, collaboration, teamwork, and high morale.

- Create relationships with senior leaders across the SOM, UC Davis Health, and internal and external partners based on trust, closeness, and support that drives toward mutually beneficial outcomes.

Candidate Qualifications

Education/Certification

- M.D. or M.D./Ph.D. from an accredited institution.

- Board certification in dermatology and eligibility for California medical licensure.

- A distinguished academic career that qualifies for appointment to Associate Professor or Professor within the UC Davis School of Medicine.

Knowledge and Work Experience

- Recognized nationally or internationally for contributions to clinical care, research, and education in dermatology.

- Demonstrated leadership experience in academic medicine or medical school administration.

- Proven ability to collaborate within complex academic and healthcare environments.

- Strong grasp of academic healthcare operations and commitment to patient-centered excellence.

- Financial acumen within healthcare and academic administration.

- Successful track record in recruiting and mentoring faculty at all career stages.

- Experience building external networks and fostering institutional relationships.

Leadership Skills and Competencies

- Collaborative and uses a team-based approach to growth in clinical and academic settings.

- Passion for excellence in patient care, education, research, and service to the community.

- Visionary leadership with the ability to guide teams through change.

- Values and trusts faculty and staff; leads without excessive supervision.

- Supportive and protective of their teams.

- Strong business acumen and an up-to-date understanding of the changing landscape within academic healthcare in the U.S.

- Ability to balance competing priorities and lead across all missions of the Department.

The Community

Sacramento, California

Sacramento and its surrounding region have a great deal to offer. From restaurants that pride themselves on farm-to-fork cuisine to a variety of outdoor recreation spots to family-friendly events, there's something for everyone.

It's also a great place to live, with a variety of housing options and neighborhoods. The cost of living in Sacramento is one of the lowest compared to all major California cities.

Sacramento lies at the intersection of two major rivers, the American River and the Sacramento River, and features the tree-lined American River Parkway, 32 miles of trails allowing joggers, walkers, and cyclists to enjoy one of the region's many natural attractions. Sacramento is near Lake Tahoe (a 90-minute drive), the Napa Valley wine region (a 1-hour drive), and San Francisco (a 2-hour drive).

WittKieffer

Procedure for Candidacy

Confidential review of applications, nominations, and expressions of interest will begin immediately. Please direct all nominations and inquiries to the WittKieffer consultants assisting UC Davis School of Medicine with this recruitment (listed below), preferably via e-mail, to khaddock@wittkieffer.com.

Aaron Mitra	**Kimberly A. Smith**	**Katie Haddock**
Principal & Practice Leader, Physician Leadership 630.575.6925 amitra@wittkieffer.com	Executive Partner & Market Leader, Academic Medicine 781.564.2625 ksmith@wittkieffer.com	Senior Associate, Academic Medicine & Physician Leadership 480.453.6971 khaddock@wittkieffer.com

Formal application materials must also be submitted via the UC Recruit system, located at https://recruit.ucdavis.edu/JPF07271 prior to formal review by the search committee. Document requirements include:

- Cover Letter/Letter of Interest

- Curriculum Vitae - Your most recently updated C.V.

- Names and contact information of 5 professional references. References will only be contacted regarding those candidates who advance to final consideration for the position. Candidates will be notified prior to the university initiating reference contact.

- Authorization to Release Information - A reference check will be completed only if you are selected as the first-choice candidate. Download, complete, sign, and upload the form: https://aadocs.ucdavis.edu/your-resources/forms-and-checklists/forms/ARF.pdf

- Authorization to Release Information Form - This form is required for all applicants applying to academic recruitments. Please see the Employment Disclosure Requirements webpage for more information. Download, complete, sign, and upload the form.

Salary Range

The salary range for this position is $650,000 - $770,000. This position includes membership in the Health Sciences Compensation plan (https://aadocs.ucdavis.edu/policies/apm/apm-670.pdf).

The University of California, Davis

UC Davis was founded in 1908 to serve the state of California. We do and we always will. Today, that seed planted years ago has grown into one of the world's top universities.

UC Davis has a community of faculty and staff leading the way in teaching, research, public service and patient care. As the second-largest employer in the region, our Davis and Sacramento campuses host more than 24,000 employees and more than 40,000 students — including undergraduates, graduate students, professional students, interns and residents.

Our talented students are more likely to collaborate than compete, and our employees make creative connections from the obvious to the outlandish. This friendly approach has built a rich campus community that turns big ideas into real solutions.

We're ranked among the top 20 public universities in the nation with $1 billion in research funding. We're harnessing our power to find innovative solutions to the world's most daunting challenges — and preparing the next generation of leaders while we're at it.

UC Davis Health partners with UC Davis colleagues in the nation's best School of Veterinary Medicine, the nation's best School of Agriculture, one of the nation's best Colleges of Biological Sciences and one of the nation's best Colleges of Engineering – all within one of the "Best Public Universities" in the U.S.

To learn more, visit: https://www.ucdavis.edu/about

The University of California

The University of California is comprised of 10 regional campuses, and it is widely considered to be the best public university system in the world.

From UC Davis in the north to UC San Diego in the south, nine UC campuses house undergraduate and graduate education programs. The 10th, UC San Francisco, focuses only on health education and offers only graduate degrees. UC also oversees three National Laboratories for the U.S. Department of Energy, where cutting-edge science meets the curiosity and vibrancy of real life. The UC owns more than 20,000 active patents and is the home of nearly 400 members of the National Academy of Sciences, more than 200 Nobel laureates and more than 100 members of the Institute of Medicine.

The University of California has six academic health centers, which have made some of California's biggest breakthroughs in health research and treatments. With top-ranked specialized care, support for clinical teaching programs, this is the home for spectacular innovation.

WittKieffer

WittKieffer is the premier executive search and advisory firm developing inclusive, impactful leadership teams for organizations that improve quality of life. For more than 50 years, we have operated exclusively at the intersection of not-for-profit and for-profit healthcare delivery, science, and education – the Quality of Life Ecosystem. Through our expert executive search services as well as our Professional Search, Interim Leadership, and Leadership Advisory solutions, we strengthen organizations that make the world better.
